A CAP FOR EVERY OCCASSION

As the official shop for Air Force Cadets we have produced hundreds of quality cap designs for Air Force, Defence groups and special events. We work closely with Air Force brand managers and understand the requirements when it comes to Air Force caps. We're able to help you create an affordable quality cap.

EMBROIDERED CAPS

Embroidered caps provide a rich textured finish where the pattern/design is embroidered directly onto the heavy brushed cotton cap in one or multiple positions. The stitch count – the density of the embroidery – depends on the detail in the design. For most designs a medium count (around 7,000) is all that is needed. For intricate or key designs we recommend a count of at least 9,000. Quality embroidery can give the design a 3D effect.

CAP CREATION PROCESS

QUOTE

Your quote includes all costs. There are no set-up fees or hidden expenses. Once we provide your official quote the price is locked in. Delivery, if required, is charged only at cost.

ARTWORK

Once you have accepted the quote you can provide your design in most electronic formats. Our experienced design team will create detailed colour artwork of the design/s and will also create a lifelike digital mock-up so you can see your cap with the design in place. When you're happy to proceed you simply return the signed artwork approval and we will create your cap.

PRODUCTION

Production and delivery time is about four weeks from receipt of your signed approval.

DESIGN POSITIONING & COST

Multiple positioning of your messaging and design features can create a stunning cap. Our design and marketing team can assist in ensuring that your message is strongly positioned and effective.
